Chi-Seng Lam, Man-Chung Wong

Design and Control of Hybrid Active Power Filters (SpringerBriefs in Electrical and Computer Engineering) Chi-Seng Lam, Man-Chung Wong

Design and Control of Hybrid Active Power Filters presents an overview of the current quality problems and their compensators. To get a balance between the system cost and performance, hybrid active power filters (HAPFs) are valuable. The book presents the coverage of resonance phenomena prevention capability, filtering performance and system robustness analysis of HAPF; nonlinear inverter current slope characteristics and their linear operation region requirement analysis of the hysteresis PWM for the HAPF; minimum inverter capacity design procedure of HAPF, adaptive dc-link voltage controller for the HAPF and the real design example of a 220V 10kVA HAPF, in which the system performance analysis method, minimum dc voltage deduction concept and adaptive dc voltage idea can be further extended into the other active compensators, such as APF, static synchronous compensator STATCOM, etc. This book will benefit researchers, graduate students, and electrical power engineers in the field of power-quality compensation.

Dr. Chi-Seng Lam and **Dr. Man-Chung Wong** are both from the University of Macau, Macao, China.

From reader reviews:

Carla Spiegel:

Hey guys, do you really want to find a new book to see? Maybe the book with the name Design and Control of Hybrid Active Power Filters (SpringerBriefs in Electrical and Computer Engineering) suitable to you? The actual book was written by well-known writer in this era. Typically the book entitled Design and Control of Hybrid Active Power Filters (SpringerBriefs in Electrical and Computer Engineering) is a single of several books in which everyone read now. This kind of book was inspired lots of people in the world. When you read this reserve you will enter the new age that you ever know prior to. The author explained their idea in the simple way, consequently all of people can easily be aware of the core of this reserve. This book will give you a wide range of information about this world now. To help you to see the represented of the world in this book.

Lavone Anderson:

Reading a e-book can be one of a lot of task that everyone in the world really likes. Do you like reading book so. There are a lot of reasons why people love it. First reading a reserve will give you a lot of new facts. When you read a guide you will get new information because book is one of various ways to share the information or perhaps their idea. Second, reading through a book will make anyone more imaginative. When you reading a book especially hype book the author will bring that you imagine the story how the characters do it anything. Third, you could share your knowledge to others. When you read this Design and Control of Hybrid Active Power Filters (SpringerBriefs in Electrical and Computer Engineering), you may tell your family, friends as well as soon about yours publication. Your knowledge can inspire different ones, make them reading a guide.

Samuel Brown:

People live in this new day of lifestyle always make an effort to and must have the free time or they will get lots of stress from both day to day life and work. So, whenever we ask do people have extra time, we will say absolutely yes. People is human not a robot. Then we inquire again, what kind of activity have you got when the spare time coming to a person of course your answer may unlimited right. Then ever try this one, reading ebooks. It can be your alternative throughout spending your spare time, typically the book you have read is actually Design and Control of Hybrid Active Power Filters (SpringerBriefs in Electrical and Computer Engineering).

David Scott:

Guide is one of source of information. We can add our understanding from it. Not only for students and also native or citizen want book to know the change information of year to year. As we know those guides have many advantages. Beside many of us add our knowledge, also can bring us to around the world. With the book Design and Control of Hybrid Active Power Filters (SpringerBriefs in Electrical and Computer

Engineering) we can acquire more advantage. Don't you to definitely be creative people? To become creative person must love to read a book. Merely choose the best book that ideal with your aim. Don't be doubt to change your life with that book Design and Control of Hybrid Active Power Filters (SpringerBriefs in Electrical and Computer Engineering). You can more appealing than now.
