High-Speed Cable Modems (McGrow-Hill Series on Computer Communications) Albert Azzam

Get the inside story on high-speed cable modems--and the IEE HSM standard--from a key member of the IEEE 802.14 team! The Telecommunications Act of 1996 and the phenomenal growth of the Internet have combined to spark a new telecommunications revolution and an intensified worldwide bandwidth race. High-speed cable modems are a pivotal new technology for delivering the enormous bandwidth required to rapidly move full-motion video and other multimedia information across the Internet to and from homes and businesses around the world.

Written by a key member of the IEEE HSM working group, this authoritative reference to high-speed cable modems and the IEEE 802.14 standard is a must-read for every cable TV and telecommunications engineer and executive. It provides a wealth of technical information with which to plan the implementation of BroadBand services and gauge the impact of HSM technology on the network: overview of the HFC environment--its architecture, BroadBand services and transport medium, including the role of ATM in the HFC network; history and evolution of high-speed modems in the digital realm; detailed discussions of the HSM physical and Medium Access Control (MAC) layers, complete with performance evaluations of all proposals submitted to IEEE 802.14; architecture and requirements to deliver POTS via HFC, plus new PCS opportunities; complete information on all standard bodies, security in the HFC environment, ADSL and other alternative technologies, and the current state of the HSM worldwide market.

From reader reviews:

Barbara Hall:

Have you spare time for a day? What do you do when you have much more or little spare time? Yes, you can choose the suitable activity for spend your time. Any person spent their very own spare time to take a wander, shopping, or went to typically the Mall. How about open or even read a book entitled High-Speed Cable Modems (McGrow-Hill Series on Computer Communications)? Maybe it is to become best activity for you. You know beside you can spend your time with your favorite's book, you can better than before. Do you agree with it has the opinion or you have various other opinion?

Louis Jackson:

As people who live in the particular modest era should be change about what going on or data even knowledge to make all of them keep up with the era and that is always change and advance. Some of you maybe will update themselves by reading through books. It is a good choice to suit your needs but the problems coming to you is you don't know which you should start with. This High-Speed Cable Modems (McGrow-Hill Series on Computer Communications) is our recommendation to make you keep up with the world. Why, since this book serves what you want and need in this era.

Donald Pate:

Information is provisions for individuals to get better life, information presently can get by anyone with everywhere. The information can be a knowledge or any news even an issue. What people must be consider while those information which is in the former life are challenging be find than now could be taking seriously which one works to believe or which one the particular resource are convinced. If you get the unstable resource then you have it as your main information we will see huge disadvantage for you. All those possibilities will not happen in you if you take High-Speed Cable Modems (McGrow-Hill Series on Computer Communications) as your daily resource information.

Jamie Norman:

The guide with title High-Speed Cable Modems (McGrow-Hill Series on Computer Communications) posesses a lot of information that you can learn it. You can get a lot of advantage after read this book. This book exist new understanding the information that exist in this e-book represented the condition of the world today. That is important to yo7u to find out how the improvement of the world. This book will bring you inside new era of the internationalization. You can read the e-book with your smart phone, so you can read the item anywhere you want.
