## Proceedings of the International Conference on Information Engineering and Applications (IEA) 2012: Volume 1 (Lecture Notes in Electrical Engineering)

Information engineering and applications is the field of study concerned with constructing information computing, intelligent systems, mathematical models, numerical solution techniques, and using computers and other electronic devices to analyze and solve natural scientific, social scientific and engineering problems.

Information engineering is an important underpinning for techniques used in information and computational science and there are many unresolved problems worth studying. The *Proceedings of the 2nd International Conference on Information Engineering and Applications* (IEA 2012), which was held in Chongqing, China, from October 26-28, 2012, discusses the most innovative research and developments including technical challenges and social, legal, political, and economic issues.

A forum for engineers and scientists in academia, industry, and government, the *Proceedings of the 2nd International Conference on Information Engineering and Applications* presents ideas, results, works in progress, and experience in all aspects of information engineering and applications.

#### **Liza Serrano:**

Some individuals said that they feel uninterested when they reading a publication. They are directly felt the item when they get a half regions of the book. You can choose the book Proceedings of the International Conference on Information Engineering and Applications (IEA) 2012: Volume 1 (Lecture Notes in Electrical Engineering) to make your reading is interesting. Your own personal skill of reading expertise is developing

when you including reading. Try to choose simple book to make you enjoy to see it and mingle the impression about book and studying especially. It is to be 1st opinion for you to like to open up a book and study it.
