A guide to promoting literacy in the digital age

With young children gaining access to a dizzying array of games, videos, and other digital media, will they ever learn to read? The answer is yes—if they are surrounded by adults who know how to help and if they are introduced to media designed to promote literacy, instead of undermining it. *Tap, Click, Read* gives educators and parents the tools and information they need to help children grow into strong, passionate readers who are skilled at using media and technology of all kinds—print, digital, and everything in between.

In *Tap, Click, Read* authors Lisa Guernsey and Michael H. Levine envision a future that is human-centered first and tech-assisted second. They document how educators and parents can lead a new path to a place they call 'Readialand'—a literacy-rich world that marries reading and digital media to bring knowledge, skills, and critical thinking to all of our children. This approach is driven by the urgent need for low-income children and parents to have access to the same 21st-century literacy opportunities already at the fingertips of today's affluent families. With stories from homes, classrooms and cutting edge tech labs, plus accessible translation of new research and compelling videos, Guernsey and Levine help educators, parents, and America's leaders tackle the questions that arise as digital media plays a larger and larger role in children's lives, starting in their very first years of life.

Tap, Click, Read includes an analysis of the exploding app marketplace and provides useful information on new review sites and valuable curation tools. It shows what to avoid and what to demand in today's apps and e-books—as well as what to seek in community preschools, elementary schools and libraries. Peppared with the latest research from fields as diverse as neuroscience and behavioral economics and richly documented examples of best practices from schools and early childhood programs around the country, *Tap, Click, Read* will show you how to:

- Promote the adult-child interactions that help kids grow into strong readers
- Learn how to use digital media to build a foundation for reading and success
- Discover new tools that open up avenues for creativity, critical thinking, and knowledge-building that today's children need

The book's accompanying website, TapClickRead.org, keeps you updated on new research and provides vital resources to help parents, schools and community organizations.

From reader reviews:

Lacie Young:

Nowadays reading books are more than want or need but also work as a life style. This reading practice give you lot of advantages. The huge benefits you got of course the knowledge even the information inside the book which improve your knowledge and information. The information you get based on what kind of reserve you read, if you want send more knowledge just go with education and learning books but if you want feel happy read one together with theme for entertaining like comic or novel. The actual Tap, Click, Read: Growing Readers in a World of Screens is kind of e-book which is giving the reader capricious experience.

Daniel Rogers:

Reading a e-book tends to be new life style in this era globalization. With studying you can get a lot of information that may give you benefit in your life. Together with book everyone in this world could share their idea. Publications can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or their experience. Not only the story that share in the textbooks. But also they write about the ability about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book that you can get now. The authors these days always try to improve their talent in writing, they also doing some research before they write for their book. One of them is this Tap, Click, Read: Growing Readers in a World of Screens.

Vickie Hintz:
