Biophysik (German Edition) Werner Mäntele

1. Aufl., Grundlegende Konzepte und experimentelle Methoden

Biophysik ist ein noch junges Fachgebiet an der Schnittstelle zwischen Physik, Chemie, Biologie und Medizin. Es ist in vielen Studiengängen ein Vertiefungsfach und wird erst seit einigen Jahren als eigenständiges Studienfach in Bachelor- und Masterstudiengängen angeboten.

Es führt in grundlegende Konzepte der Biophysik ein und beschreibt die wichtigsten experimentellen Methoden. Bei der Behandlung dieser Konzepte werden einige Grundlagen aus Physik, Chemie und Biologie vorausgesetzt, die üblicherweise in den ersten Semestern des Studiums vermittelt werden.

Dieses Buch entstand an der Goethe-Universität Frankfurt als Begleitbuch zum ersten grundständigen Biophysikstudiengang.

Aus dem Inhalt:

- Eigenschaften, Struktur und Funktion biologischer Polymere
- Eigenschaften biologischer Membranen
- Transportprozesse über biologische Membranen
- Grundlagen biologischer Energiewandlung
- Spektroskopische Messmethoden
- Rastersondentechniken und molekulares Kräften messen
- Strahlenbiophysik

From reader reviews:

Holley Shipman:

What do you concerning book? It is not important with you? Or just adding material when you need something to explain what you problem? How about your spare time? Or are you busy particular person? If you don't have spare time to perform others business, it is gives you the sense of being bored faster. And you have free time? What did you do? Everybody has many questions above. They have to answer that question since just their can do that. It said that about reserve. Book is familiar in each person. Yes, it is appropriate. Because start from on guardería until university need this particular Biophysik (German Edition) to read.

Bobbi Wilkinson:

In this 21st century, people become competitive in each and every way. By being competitive at this point, people have do something to make these people survives, being in the middle of the crowded place and notice by surrounding. One thing that often many people have underestimated this for a while is reading. Sure, by reading a publication your ability to survive improve then having chance to stay than other is high. For you personally who want to start reading a new book, we give you that Biophysik (German Edition) book as beginner and daily reading e-book. Why, because this book is more than just a book.

Megan Lapointe:

Now a day people who Living in the era just where everything reachable by connect to the internet and the resources in it can be true or not demand people to be aware of each details they get. How a lot more to be smart in obtaining any information nowadays? Of course the solution is reading a book. Studying a book can help individuals out of this uncertainty Information especially this Biophysik (German Edition) book because book offers you rich details and knowledge. Of course the knowledge in this book hundred % guarantees there is no doubt in it as you know.

David McCabe:

You are able to spend your free time you just read this book this publication. This Biophysik (German Edition) is simple to create you can read it in the recreation area, in the beach, train and soon. If you did not have got much space to bring the printed book, you can buy typically the e-book. It is make you easier to read it. You can save the book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.
