***Basic Japanese* takes a friendly and innovative approach to beginner Japanese, emphasizing the structure of the Japanese language rather than just vocabulary.**

This method was pioneered by the author, Samuel E. Martin. Once considered controversial, modern linguists now agree that the structural based approach for learning a language allows for more effective retention than the traditional repetition-based approach.

Each lesson is set up to ease learners into not just understanding new material but mastering it, using a four-step method:

- **Step 1: Basic Sentences:** Each lesson begins with the key to quick mastery of spoken Japanese—learning and understanding new sentence patterns. Vocabulary is learned in context. A Basic Vocabulary section lists only essential words and phrases that are relevant to the theme of the lesson.
- **Step 2: Structure Notes:** Next the learner is guided through complete, in-depth explanations of the sentences' grammar essentials, to aid in mastering the sentence patterns.
- **Step 3: Conversation:** Authentic dialogue teaches the way people naturally speak, putting into practice the lesson's sentence patterns with common, everyday topics.
- **Step 4: Exercises:** An opportunity for practicing—and for strengthening your understanding of the lesson's key points and ability to read Japanese.
