Emerging Concepts in Neuro-Oncology

Emerging Concepts in Neuro-Oncology

Having been a fairly dormant specialty for many decades, in recent years there has been a remarkable increase in activity in Neuro-oncology from basic science through to the clinics. Reflecting this there have been considerable advancements in the understanding of the biology of CNS malignancies which have informed the development of many novel and successful therapies. This work aims to bring together the scattered literature on the new concepts in neuro-oncology for the benefit of those in the field. The book moves from concepts in the scientific basis of neuro-oncology, through to modelling techniques and finishing on the translation into clinical practice.
