Appropriate as supplemental reading for courses in Social Policy and Social Studies that examine the role of parenting in society. The subject of lone mothers is a controversial and highly topical social and political issue. This unique core text examines the key issues in the debate, and assesses their impact on the UK and other countries in a comprehensive and accessible way. Broad in scope, it covers a wide range of issues including gender roles, the relationship of the family and the state, and the relationship between social policy and labour market policy.
