Sticker Strategies. Second edition (Social Thinking Curriculum) Michelle Garcia Winner

By providing a CD and book now you can print as many strategies you want onto standard labels and flipbooks and save the formatted stickers in Word for your student. You can still print from formatted strategies in the included book. A popular tool, the previous book included actual stickers, making it expensive to print. This CD/book package is half the first version's price and more versatile! While originally developed for use with students with social cognitive learning challenges (Asperger's, high-functioning autism, ADHD, etc.), these strategies can easily be applied to any child who needs that strong visual reminder - a more powerful teacher than an adult's "nag." This CD/book package allows for a student to learn a strategy presented in the book, then the instructor sticks the strategy sticker in a flip notebook. The student carries the flipbook with him/her throughout the day. With the flipbook, the student can easily and discretely refer to the strategies s/he already learned to solve problems with independence. The result is fewer behavioral breakdowns and classroom disruptions, while teaching self-reliance and problem-solving anytime, anywhere. This is a great tool for a student who recognizes his/her weaknesses and is motivated to improve. This tool is not effective for students who either don't realize that they need improvement or who aren't motivated to help themselves. Enhanced strategies include those for: Asking for Help; Emotions and Problem Solving; Organization, Writing and Homework; Group Work; Social Thinking; Family Time - Home Strategies This innovative tool is best for 3rd grade to 12th grade students Labels and spiral notebook not included in package but available at office supply stores ©Think Social Publishing 2010 \$24 - plus shipping for book and CD If after ordering you were expecting the old Sticker Strategies book, we will gladly accept the return of this new CD and book package.
