Green Culture: An A-to-Z Guide (The SAGE Reference Series on Green Society: Toward a Sustainable Future-Series Editor: Paul Robbins)

Green Culture: An A-to-Z Guide (The SAGE Reference Series on Green Society: Toward a Sustainable Future-Series Editor: Paul Robbins)

Green Culture: An A-to-Z Guide explores the on-going paradigm shift in culture and lifestyles toward promoting a sustainable environment. After years of discussion about the environment dating back to the 1960s counter-culture, the recent explosion of green initiatives has induced the general public to embrace all things green, from recycling in the home to admiring green celebrities. This volume assesses the green cultural transformations by presenting some 150 articles of importance to students of sociology, history, political science, communications, public relations, anthropology, literature, arts and drama.

Presented in A-to-Z format, the articles include appealing topics from green Hollywood to green spirituality, green art, and green restaurants. This work culminates in an outstanding reference available in both print and electronic formats for academic, university, and public libraries. Vivid photographs, searchable hyperlinks, numerous cross references, an extensive resource guide, and a clear, accessible writing style make the Green Society volumes ideal for classroom use as well as for research.
