Children and Families in the Social Environment (Modern Applications of Social Work)

James Garbarino

Children and Families in the Social Environment (Modern Applications of Social Work) James Garbarino

The first edition of this volume successfully applied Bronfenbrenner's "micro-systems" taxonomy to childrearing and family life. Emphasizing how forces in the environment influence children's behavior, Garbarino has staked out an intermediate position between the psychoanalytic and the systems approach to human development. Taking cognizance of new research and of changes in American society, Garbarino has once again carefully analyzed the importance of children's social relationships. For this wholly revised second edition, he has incorporated a greater emphasis on ethnic, cultural, and racial issues.
