Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor

I. Yamamoto, J.E. Casida

Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor I. Yamamoto, J.E. Casida Insect pest control has continuously evolved from inorganics to botanicals, to chlo- rinated hydrocarbons, to organophosphorus compounds and methylcarbamates, then synthetic pyrethroids and most recently synthetic nicotinoids as the major classes. These insecticides allowed high standards of crop protection at minimal cost. A limitation in each new class of compounds is the selection of resistant strains and ultimate control failures and this serves as a driving force to discover and develop replacement compounds to circumvent resistance and overcome problem areas. The nicotinoids now play a critical role in meeting this need. Three generations of chemicals are involved in the history of nicotinoid insecti- cides. The first generation was the botanical nicotine used for at least three centuries to control sucking insect pests but largely replaced in the 1940s and 1950s by the more effective organophosphorus compounds and methylcarbamates, some with systemic properties. Synthesis programs based on nicotine as a prototype did not yield compounds that could compete with other synthetic insecticides.

The second generation was the nitromethylene type such as nithiazine, discovered by Shell sci- entists in a screening/optimization program. The nitromethylenes had the potency, selectivity, and systemic properties but lacked the field effectiveness largely because of photolability (so close yet so far from a major commercial product). The third generation required a series of advances made by Bayer researchers starting from nithiazine as the model and enhancing its photostability and potency with a nitroimine and chloropyridyl moiety, respectively, to give imidacloprid, the subject of much of this monograph.

From reader reviews:

Paul Butler:

Do you have favorite book? In case you have, what is your favorite's book? E-book is very important thing for us to find out everything in the world. Each guide has different aim or goal; it means that e-book has different type. Some people feel enjoy to spend their time and energy to read a book. They may be reading whatever they have because their hobby is definitely reading a book. Why not the person who don't like studying a book? Sometime, particular person feel need book once they found difficult problem or perhaps exercise. Well, probably you will want this Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor.

Manuel Rodriguez:

This Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor book is absolutely not ordinary book, you have after that it the world is in your hands. The benefit you get by reading this book is usually information inside this e-book incredible fresh, you will get details which is getting deeper you actually read a lot of information you will get. This Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor without we comprehend teach the one who reading through it become critical in thinking and analyzing. Don't always be worry Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor can bring any time you are and not make your handbag space or bookshelves' turn into full because you can have it within your lovely laptop even cell phone. This Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor having good arrangement in word as well as layout, so you will not feel uninterested in reading.

Jennifer Mendoza:

Reading can called thoughts hangout, why? Because while you are reading a book specifically book entitled Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor the mind will drift away trough every dimension, wandering in every single aspect that maybe not known for but surely will become your mind friends. Imaging every single word written in a publication then become one form conclusion and explanation that will maybe you never get ahead of. The Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor giving you one more experience more than blown away the mind but also giving you useful information for your better life on this era. So now let us present to you the relaxing pattern this is your body and mind will be pleased when you are finished looking at it, like winning an activity. Do you want to try this extraordinary paying spare time activity?

Gloria Quinones:

A lot of publication has printed but it is unique. You can get it by web on social media. You can choose the most effective book for you, science, comic, novel, or whatever by means of searching from it. It is named of book Nicotinoid Insecticides and the Nicotinic Acetylcholine Receptor. Contain your knowledge by it. Without leaving the printed book, it can add your knowledge and make you happier to read. It is most crucial

that, you must aware about book. It can bring you from one spot to other place.
